The Very Latest-A Girl "Raffles."

Those who do not believe that the time has come when woman is able to enter every field of activity that men have kept to themselves hereto-fore should read of the adventures of a most enterprising young lady, who seems to have emulated the famous cracksman "Raffles," and gone him ene better. She managed to deceive people in male garb as a beliboy until they had no suspicion that she was a girl. But her latest exploit was the most wonderful of all. In the Sunday World to-morrow she tells her own story.

"The Yellow Face," And What It Meant.

From fact to fiction. From the adventures of a "Raffies" to the equally wonderful adventures of that greatest of all detectives, Sherlock Holmes. This week's story of Holmes s one of the very best that Sir A. Conan Doyle has ever written, and is particularly interesting in that it tells how the great sleuth came to take up the career that has made him famous. The story is called "The Yellow Face."

An Out-of-Town Couple in New York.

Here is the continuation of the adventures of Mr. and Mrs. A. Lioyd Bliss, by Anna Steese Richardson. No series of articles ever published in the Sunday World has attracted more attention than this; for, while to sny young couple who intend paying a visit to the metropolis. This is the season when out-of-town people come to New York, and it will pay any of them to read these articles herors that they have their sulfreed these before they buy their railroad tickets

If You Had \$10,000,000 To Give Away?

The Sunday World asked its readers to tell how they would give away this sum, inasmuch as a good many of them did not seem to think that Mr. Carnegie had made the best use of it possible in pensioning old col-lege professors. The answers came, of course; and it may amuse and instruct you to read some of them. There are as many methods of giv-ing away millions as there are mill-ions themselves, it would seem; and some of them—but read a page of the letters for yourself.

War Is Coming-To Brighton Beach.

Brighton Beach does not intend being left out in the cold this summer by its businessilke neighbor. Coney Island; and the things they are doing down there to get the place ready for visitors will surprise you. The main feature is the Boer War, and a most realistic spectacle it promises to be. The Sunday World prints some interesting picturer of it, and tells of all the plans for this famous resort.

from a cruise on the ocean. During that cruise he did some remarkable things, and showed to those about him an entirely different side of his nature than he had ever exhibited before. Anything about this great man is always interesting; but this account of his doings on the memorable cruise is perhaps the most readable article that has ever been written about him. It is finely illustrated, too, in characteristic Sunday World style.

Cupid's Latest-

A True Story.

Here is a story of mutiny on the high seas as realistic as any you ever read. The affair took place recently, and, while the mutineers got away, their secape has resulted in one of the most remarkable across-seas chase that ever occurred. The story of this terrific fight at sea, as told by the captain of the ship himself, will remind you of the old Marryat stories.

"Tommy's Burglar." By O. Henry.

Here's another of those clever C. Henry stories, by the writer who is exciting such interest in the public. Everybody, almost is writing in and asking who "O. Henry" is. Sufficient for them to know at present that he writes the best short story of any author now before the public. "Tommy's Burgiar" is one of his best too.

Marriage by Wire.

Love, like everything else, is up-to-date. The very newest fad is getting married by telegraph, when the contracting parties are separated by thousands of miles. It may not be very popular just yet, and doubtless will never take the place of the old-fashioned wedding, but for couples who cannot meet but are willing to get married the method is recommended and described in the Sunday World,
